Profile

I am looking for a service based company where I can work on different technology. I already worked in a Startup for around six months, during my employment, I was able to solve problems of two departments mentioned below. I like to solve the world's problems with my code. I am a self-motivated person and I try to exceed my superior's expectations with high-quality work. Being a fast learner, I quickly pick up business knowledge related to my project.

Professional Experience

Broomees India

Full Stack Developer

Apr 2022 - Sep 2022

During this journey I learned and worked on **CodeIgniter** and **PHP** for backend and for frontend worked on **JavaScript**, **MySQL** Database for storing the data and use MySQL Workbench to handle it.

- Develop **Broomees worker App on Cordova**, Worked on all API development as well as some frontend work with multi language support.
- Create a **worker Journey module** for broomees operations Team so that they easily track worker history.
- create a **Payout module** for our finance team so that they can easily send salary to worker.
- worked on **Semantic Tag** for SEO purpose.

Graduation

B.voc Software Development
